

CK Online Data Manager

SOFTWARE FOR EFFECTIVE COMMUNITY INVESTMENT

“The Software to capture and collate information, and share resources to promote effective community engagement by your employees.”

The **Online Data Manager (ODM)** is a reliable, secure and robust web-based client and project co-ordination system, configured to meet the needs of the corporate sector.

KEY BENEFITS

- Allows your employees to apply for and manage their volunteering, payroll giving and match funding online, eliminating any duplicate data entry by community investment, HR or payroll departments.
- Excellent value for money with low start up costs and no ongoing reliance on a supplier for bespoke changes.
- Incorporates a searchable database for you to upload volunteering opportunities.
- Simple to use and highly configurable, allowing you to create, edit and delete data fields and screens as necessary.
- Supports the measurement and evaluation of your employees' community involvement across the whole organisation, facilitating internal and external reporting.

CCWorks is a specialist Community Investment Consultancy offering support services to employers, including management of employee involvement programmes.

The Gallery Partnership specialises in IT software and support for Community Investment and Grants Programmes.

USER TOOLS

The ODM provides tools for your employees to easily access and organise their community activity:

My ODM

Simple navigation and clear screens, a searchable database of volunteering opportunities. Employees can manage payroll giving donations and apply for matched funding from their desks.

Virtual Office

Includes personal messaging, discussion forums, user bulletins, file and document library and calendar.

MANAGEMENT TOOLS

The Online Data Manager provides tools that allow you to modify your database to reflect changes in your organisation's needs:

Designer

Create, manage, organise, update and control fields and screens yourself.

Report Builder

Create and customise reports to meet the reporting needs of your Board and other internal and external stakeholders.

Access and Permissioning

Ability to limit employee access to data and screens by whatever criteria suits your organisation.

Support and Training

CCWorks and Gallery, are on hand to provide training and on going support. Our staff form strong working relationships with our clients.
